First up are the guys after who came up with a very effective effective Generator for anyone who needs to unlock Samsung Galaxy s3, s4 or s5. Unfortunately, the codes only work for models s3 to s5 Samsung Galaxy, but if that's what you're looking for, then unlocking your phone couldn't be easier than with this generator. Just follow our simple step-by-step instructions and you will be able to use your smartphone with any sim card you choose in no time. Step 1: The first thing you need to unlock your phone is its IMEI code. This code is a 15-digit code that network operators use to identify a specific device. On Samsung Galaxy s3, s4 and s5 models, access to your IMEI works the same way. Open the keyboard as if you wanted to dial a number. Type #06# and press the call button. Your phone will display your IMEI code, which you should note as you need it later. Step 2: This is phase 1 complete. Next, open the internet browser on your smartphone and go to When using the Samsung Galaxy s3, s4 and s5 code generator, the unlock generator is free, you need to participate in one of the sponsored offers to get your code. That's, true, a little pain, but hey, we all know there's no such thing as a completely free lunch, right? But don't worry, even if you're not interested, you can always uninstall immediately regardless of the sponsored app once you've finished unlocking your phone. Step 3: After the download process is complete, install and run the program. This will start the process of unlocking your phone. Step 4: Here you will need the IMEI code that you previously recorded. The program opens the interface on your Samsung Galaxy device, which looks exactly like in the picture below. Select the appropriate Samsung Galaxy model and enter the IMEI code. Step 5: Now simply press the Generate button. In 2-4 days you will receive an email with an unlock code. Step 6: Once your unlock code is generated, make a careful note of it before turning off your phone and removing the old SIM card. Insert a new, previously blocked SIM card into your device and turn it on. You will be prompted to enter a PIN code to unlock the SIM network, as shown in the image below. Now all you have to do is enter the unlock code from the previous step. Step 6: Your smartphone will now start the restart process. This will again take a few minutes, but after the device is finished it will be completely unlocked. Congratulations! Now you can use your Samsung Galaxy device with any network and SIM card you choose!
